GREEN HEART LEADER STUDENT WINS SECOND RUNNER-UP SPOT AT SUN THAILAND 2021

King Mongkut's University of Technology Thonburi The Green Heart student group presented the project "Ants of WeaveJai Fight against COVID-19" and won the second runner-up prize in the Student Sustainability Project under the theme "The next Normal: Sustainability Actions for Higher Education during COVID-19" (Student Project Challenge 2021) at the 6th Sustainable University Network Of Thailand Conference in 2021. On January 21, 2022, the event was organized online through KU WebEx Meeting. It is also a key driver in the implementation of activities. Results of such activities In addition to building knowledge in the field of safety, it also develops skills in various areas and has created sustainability for the community. TU then expanded these sustainability seeds to communities around the university to tangible results. The student team includes: Mr. Akornpan Thaweesak, Mr. Manaskwin Phupinyokul and Ms. Supawadee Phusan, with the EESH Center and student financial assistance group, are consultants throughout the event.
