

EESH CO-HOSTED THE 7TH ME ENERGY SAVING DAY

Energy Environment Safety and Health Center (EESH) together with energy conservation work group from Department of Mechanical Engineering co-hosted the 7th ME Energy Saving Day on 17 November 2020 at Witsawa Watthana Building. This activity was held to raise awareness about water and energy conservation in accordance with King Mongkut's University of Technology Thonburi's energy policy and to encourage better understanding about energy conservation and efficient use of water through exhibition and thought-provoking games. This activity was received with much attention from KMUTT members, both faculty staffs and over 200 students.
