

# EESH HELD WORKSHOP FOR ENERGY ENVIRONMENT AND HEALTH MANAGEMENT SYSTEM AT KMUTT, BANGMOD CAMPUS

**Energy Environment Safety and Health Center (EESH) organized a workshop on Energy Environment and Health Management System for its staffs and contractors at KMUTT Bangmod campus, on 20 March 2021 and 3 April 2021. The workshops were to raise awareness in KMUTT New Normal policy, including energy management system, waste management, Thailand lab safety standard, and emergency response protocol within the university to the related staffs (which comprise cleaning, security, maintenance, and gardening staffs). The workshop was led by lecturer from EESH center and core students from Green Heart. The workshop was aimed to improve understanding in the KMUTT system for seamless operation within the university and prime it for becoming the sustainable and green university. The workshop had over**

**200 attendees.**
