

EESH PARTICIPATES IN 'CHRISTMAS IN THE GARDEN' EVENT

The Energy, Environment, Safety, and Health Center (EESH) participated in the 'Christmas in the Garden' event on December 13, 2025, at the Learning Garden area. This event was organized to provide an opportunity for students to showcase their talents through various activities. The focus was on developing students' potential, addressing a diverse range of skills, reducing social inequality, and achieving sustainable student development goals. Moreover, the event aimed to expand the network of student leaders in environmental development, contributing to the future development of the university.

This event garnered significant interest from the KMUTT community, including more than 200 faculty members and students. It aligns with the university's commitment to the Sustainable Development Goals (SDGs) 2030, specifically Goal 5: Achieve gender equality and empower all women and girls, and Goal 16: Promote peaceful and inclusive societies for sustainable development, provide access to justice for all and build effective, accountable and inclusive institutions at all levels.
